The screenshot shows the TeXmaker website with a dark blue header containing navigation links: DOWNLOAD, DOCUMENTATION, SCREENSHOTS, CHANGELOG, CONTACT, and social media icons. The main content area features the TeXmaker logo, the text "Free cross-platform LaTeX editor since 2003 (Windows, MacOSX, Linux)", a red-bordered button for "DOWNLOAD version 5.0.4", five stars, and the quote "Powerful, easy to use and elegant". Below this is a screenshot of the TeXmaker application interface. The interface is split into two main panes. The left pane shows a LaTeX source code file with various commands and comments, such as `\documentclass{article}`, `\usepackage{tikz}`, and `\begin{tikzpicture}`. The right pane shows the rendered PDF output, which includes a colorful circular diagram, a 3D cube, and a graph with axes and data points. Annotations with arrows point to specific features: one points to the left pane with the text "Powerful Editor with unicode support, spell checking, auto-completion, code folding", and another points to the right pane with the text "Integrated Pdf viewer with syntax support and continuous view mode".
